MATÉRIAU MATERIAL

FabBRICK est un matériau unique et innovant fait de textile recyclé.

Cette matière responsable est également performante :

- **Absorbant Acoustique**
- **Isolant thermique**
- **Ininflammable**
- **Résistance mécanique**

—

FabBRICK is an unique and innovative material made from recycled textiles.

This responsible material is also high-performance:

- .Acoustic absorber*
- .Thermal insulation*
- .Non-flammable*
- .Mechanical strength*

HISTOIRE STORY

FabBRICK est inventé en 2017 par Clarisse Merlet sur les bancs de l'école d'architecture.

Deux ans plus tard, elle dépose le brevet de ce matériau innovant en France et en Europe.

Aujourd'hui directrice artistique de la marque, elle a su la faire évoluer, grâce à son équipe, au gré des différents projets artistiques réalisés.

-

FabBRICK was invented in 2017 by Clarisse Merlet at architecture school.

Two years later, she patented this innovative material in France and Europe.

Today, as Artistic Director of the brand, she and her team have been able to develop the brand in line with the various artistic projects they have carried out.
